About Me

I'm a founding or principal developer, who has worked in tech for over 20 years in individual contributor and leadership roles. I work within my strengths and strive to lift up the people and systems around me so that we all win.

Relevant Experience

Staff Software Developer, Fly.io

2023–2024

At Fly.io I worked across Elixir, Ruby, and Go codebases to improve PaaS functionality in the UI and CLI.

- Built initial UI based deployments feature for Fly.io's PaaS product.
- Set up data stack and tooling for collecting/measuring/presenting product metrics.

CTO & Co-founder, OneFeather

2019–2023

I joined OneFeather full time in order to build out internal teams for software development, support, marketing, and product design.

- Acted as principal developer for OneFeather's KYC and Online Status Card Renewal products, which are federally recognized and have been used by over 500k people in Canada.
- Worked with partners and internal staff to ensure successful delivery of large scale voting events for First Nations and Métis Nations with over 20k voting members.

Director of Engineering & Product, Pixel Union

2017–2019

I joined as the first technical leadership with a goal of expanding organizational capacity for product and service offerings.

- Improved development team cycle time by collaboratively designing and implementing CI/CD processes with automated testing, feature flags, and multiple environments.
- Established practices for deployment and scaling to enable growth and reliability during high traffic periods (i.e. Black Friday/Cyber Monday)
- Managed the technical, product, and people aspects of acquisitions.
- Scoped, architected, and delivered the Shopify integration for the BC Cannabis Stores online store.

Principal Developer, MPL Software Services

2011–2017

I ran a boutique consultancy where I partnered with clients as their go-to full-stack/mobile developer and product consultant. Worked to deliver multiple web and mobile applications as the primary developer. Clients spanned healthcare, municipal governments, US special forces, First Nations, and green building industries.
